Office Action Summary	Application No. 10/711,435	Applicant(s) ZAMFES, KONSTANDINOS
	Examiner ALESSANDRO AMARI	Art Unit 2872

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If no period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Withdrawal of Previous Office Action

1. Applicant is hereby notified that the previous office action mailed on 19 June 2008 is hereby withdrawn since the action should have been indicated as being FINAL and not non-final. Therefore, this current office action is submitted in lieu of the withdrawn office action of 19 June 2008.

Election/Restrictions

2. Claims 6 and 7 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 10 March 2008.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claim 8 is rejected under 35 U.S.C. 102(e) as being anticipated by Stolper US 6,666,067.

In regard to claim 8, Stolper discloses a process of analyzing a sample immersed in liquid, comprising: a) providing a sample; b) providing a horizontally focusing binocular microscope; c) selecting a visual point in the sample; d) horizontally focusing on the visual point in the sample; and e) analyzing the sample using the horizontally focusing binocular microscope as described in column 2, lines 46-65, column 7, lines 45-67 and column 8, lines 1-19. Although the prior art does not specifically teach horizontally focusing on the visual point in the sample, this is seen as an inherent teaching of the reference, since the binocular microscope must be focused in order to analyze the sample.

Allowable Subject Matter

5. Claim 9 is allowed.
6. Claim 9 is allowable for at least the reason, "a) maintaining the sample in a vertical position; b) maintaining the sample in an undisturbed state to maintain the integrity of the gravitationally separated fractions; c) providing a horizontally focusing binocular microscope; and d) viewing the gravitationally separated fractions of the sample in a vertical and undisturbed state using the horizontally focusing binocular microscope" as set forth in the claimed combination.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
